The eccentric Andrea Franchetti has become widely known for producing wines in Tuscany. (The prices are anything but popular). Beginning in 2000, Franchetti acquired an estate in the northern slope of Mount Etna, and began producing complex and powerful reds with an extraordinarily expressive character. To describe it in one word: excellent, and the 2004 vintage is an other extremely successful release.

18/20 nero mascalese bt 9000

A touch of the Mediterranean on your palate, expressive purity, intriguing richness combined with fruity pureness.
